

Horrid Murder!—The body of a woman named Mary Montony, a lewd woman, recently from Cincinnati, was found on the hillside immediately above the Missouri Iron Works, by some boys, on yesterday afternoon. She had been murdered on the night previous. Coroner Day had a jury summoned and an inquest held on the body yesterday evening, who found that she had been beaten upon the head with a stone or stones so as to cause her death. We were informed by one of the jurymen that a large and deep gash was cut in the back part of her head with a sharp point of a stone, sufficient of itself to cause her death, and the left side of her head was mashed literally to a jelly. On her left arm and upper lip appeared wounds apparently inflicted by a knife or other sharp instrument. No clue to the perpetrators of the horrid deed has yet been discovered.

A Liberal Proposition.—We yesterday received the following liberal proposition from a young student at Granville, Ohio:

GRANVILLE, May 12th, 1858.
Editors Intelligencer.—The object of this note is, to know if you are in need of a traveling correspondent.

It is my wish to travel through the Eastern States during the months of July and August. I would agree to furnish you an article of a certain length every week, descriptive of the country and places visited, their social and commercial interests, their prospects, &c., &c. The only remuneration I ask is the expense of traveling.

If needed, I can give the best of references. I will be in your city in about eight weeks, when arrangements can be made, if you accept my proposal. Please write soon.

Yours Respectfully,
Now let us see about this. The travelling expenses of this brilliant star in the literary firmament, will not be less than three dollars per day during the sixty-one days of July and August, making \$183. Say he furnishes a letter of two columns every two days, the composition will cost us over two dollars a column—\$180, for type setting extra, during the dog days, making a sheer outlay of \$303, besides having our columns burthened continually with dull, stale, flat and unprofitable school boy dissertations upon the Muscovia duck districts and goose besicged villages of "down east." Under the circumstances, we couldn't possibly do it. As far as our columns are concerned we very much fear that this fragrant literary flower—

"I born to blush unseen,
And waste its sweetness on the desert air."

A Dark and Bloody Combat.—A duel took place in Wellsburg the other day between two gentlemen of color, named Pete Wilson and Jack McNulty. Three rounds were fired. Pete was posted up and duly informed that the destructive weapons would contain nothing but powder, but Jack fought the three rounds with earnest "fell intent." The *Herald* has a long account of the most ridiculous affair, in which it says: "It will of course be understood that the affair was concocted by those who managed it, and so arranged that no blood should be shed; and of the principals being in the secret though the other was kept profoundly in the dark as to the contents of the pistols." Believing them to be both loaded with ball, the coolness with which he stood fire ought to cool the conceit of those who are accustomed to regard the duel both as the truest test of real courage, and the most honorable means of settling a difficulty. Many of the best men of the nation have figured upon the field of honor, and some of the most gallant spirits of our age have vindicated with their lives their adherence to a false and murderous custom; but we doubt whether any of them showed more nerve than did black Jack on Saturday last. This kind of animal courage is a very common quality, and is very different from the generous courage of the truly brave and conscientious man."

Green in Ladies' Dresses.—Something singular, if not significant, says an exchange, is the amazing preponderance just now of the tint of green in ladies' habiliments. It is noticed that this grateful hue is prominent in all the most beautiful, late and costly patterns. The frouces of silks, bareges and grenadines, show the same color. The bonnet materials incline to it, and it triumphs in the wreaths and sprays that flourish so near the cheek of beauty. It is not the golden green of the moss, or the rose-bud, or the silk of the young ear, or the verdure of the tender grass of April; it is a chastened, sober green, pure and delicate as the crested sea-weed, and alloying itself harmoniously with the pale violet and the lilac blossoms. It has a freshness that suits the spring costume, and a coolness that attracts the eye amid the heat of summer. Yet it has never been so universally a favorite as now. Fashion seems in love with nature for once, and resolved to appropriate her liveliness.

The Second Section.—Wm. Worthy, a really worthy young man when sober, got drunk the night before last, "broke" the second section, and threatened to serve an unoffending individual's devoted head in the same manner. He was fined two dollars by Ald. Wright, which he said he wouldn't pay, and officer Lancaster proceeded to escort him to jail. Before arriving at the door of the institution Mr. Worthy changed his mind and forked over the required sum.

The Agricultural Society.—The members of the North-western Virginia Agricultural Society, will meet this morning, at the Court House, at 10 o'clock, for the purpose of electing officers and affecting a thorough organization under the new charter. There is to be a President, Secretary, Treasurer and Executive Committee appointed. It is desirable that there should be a large attendance of the members, as well as of the public.

Lake Fish.—A lot of fresh lake fish will be received and opened to-day at 12 o'clock, at No. 21 Water street. Call and see them.

Laud Slide on the River.—Yesterday morning, a house on the river bank, opposite the city, owned by Daniel Zane, and occupied by a family, was partly carried into the water by a heavy slip in the river bank. One half the house, which was a one story frame, tumbled down with the bank, but fortunately no one was injured. The family immediately vacated the premises.

Murder Trial.—The May term of Washington county court commences on Monday next, when the case of Commonwealth vs. William Jones, charged with the murder of Samuel H. White, will be taken up. It is altogether probable that Jones will be discharged from custody.

Payne & Co., advertise a new lot of varieties this morning. Fishing tackle, gum gloves, leather watch guards, window curtains, ink and ink fixtures, and everything of that sort. The stock in this store is kept up by constant receipts of new goods, and the firm is able to offer many advantages to purchasers.

Whipping His Wife.—John Suttan, of East Wheeling, yesterday afternoon in a drunken fit of anger struck his wife upon the head with a whisky bottle. He was taken before Ald. Wilson, and from thence to jail.

Read these significant lines of a forgotten poet:

"His flesh has little flesh,
And his heart has little heart;
And his soul has little soul,
And so, and so, and so."

The River is still rising, with 18 feet 9 inches water in the channel. We had another rain yesterday morning, but in the afternoon the clouds cleared away, and the day "showed all the beauties of the sun." The landing was more active than for several days. The Silver Wave, bound for St. Louis, was taking in some freight. The packets and people around them, were busy in attending to shipments, but that the aspect of things could not be called dull. The Liberty left for Cincinnati, with a good many people, and a fair quantity of freight.

BUSINESS NOTICES.
See advertisement of Dr. Sanford's Liver Vigorator in another column.

But Wheeling Drug Store.—We are pleased to see that our young friend, T. B. Johnston, has opened a neat Prescription store in East Wheeling, corner of Zane and Seventh streets. Our 4th Ward friends have long felt the need of such an establishment, and now that a reliable one has been established, we hope it may receive their entire patronage. A complete stock of all kinds of drugs, perfumery, extracts, pomades, fancy soaps, &c., always on hand. Prescriptions carefully compounded by day or night.

Telegraph News.—Fifteen Days Later from Baltimore.—Stein Brothers have received a dispatch from their large house in Baltimore that there is a decline on Mineral Bank notes, but they are still paying their old prices for that kind of money. Those having this sort of funds would do well to bring it to Stein Brothers at once, as they do not expect to offer the late high prices much longer.

WATER WHEELS!
We are now manufacturing the Improved JOURNAL TURBINE WATER WHEEL, for Mills and Factories of every description; and all those wishing to improve their water power will find it for their interest to address us by letter, stating the number of feet head and fall; the amount of water; the kind of machinery to be driven. We will give them the price of wheel, or what we will furnish wheel and principal gears for. Warranted to do a certain amount of work. Time given to test the wheel, and if it does not come up to our figure, the wheel and gears to be delivered to us at the purchaser's mill. References given and required.

—JAMES L. STEVENSON,
24 Monroe Street.

PAYNE & CO.,
24 Monroe Street.

WE have, at all times, on hand, a supply of WILLIAM KNABE & COMPANY'S PIANOS, which we put up in the purchase of dwelling, at Eastern prices. If you wish to purchase a piano, or if you wish to see one, call on us. We have a great pleasure in certifying that I have tried your Piano; and find them equal, if not superior, to any in this country, among their great qualities which are the most perfect of their kind, and which we can easily and easily reach and volume of tone. Wishing you all the success you so richly deserve, I am, sir, yours, very truly,
MR. WM. KNABE, Baltimore.

PICTURES FOR THE MILLION!
Prices to suit the times, at WYKKE'S GALLERY OF ART, Main street, opposite Union. Pictures taken at all galleries at greatly reduced prices. The public are aware that this is the place to obtain the best Pictures that are taken in the city.

I would also inform them, that they need not go to second rate rooms to obtain a cheap picture, but come right to head quarters, where we are prepared to take them as cheap as the cheapest.
(Signed) J. W. WYKKE, Artist.

NOW IS THE TIME
TO GET YOUR LIKENESSES,
AT 1184 MAIN ST., At the foot of the Hill.

PARTRIDGE, in consideration of the hard times, will for a few weeks put up pictures at reduced prices. For proof please call and examine for yourself. He has many styles of the latest from \$5.00 to \$100 per cent. Below the old prices Dec. 29, '57.

BRAGG'S ARCTIC LINIMENT
This incomprehensible Liniment, upon which the great mass of the afflicted are so long and so vainly depending, is a rapid and powerful remedy for all the pains of Rheumatism, Neuralgia, Joint, Erysipelas, Cancer, Scrofula, Sprains, &c., &c., Burns, Scalds and all cutaneous diseases, and all other diseases of the skin. The proprietors give for the encouragement of sufferers, the following memorandum of a few of the wonderful cures effected by it during the past season. It is a testimonial from the parties named are in the possession of the proprietors, but their length precludes publication of all but a few.

One Bottle Triumphant.
Mrs. Moffat, No. 345 Morgan Street, St. Louis, having suffered for three years with Rheumatism, and tried many preparations without effect, was cured by one bottle of the Arctic Liniment.

Plays the Little Children.
Henry Davis, Mount Street, St. Louis, who says he was "suffering the pains of purgatory" with Neuralgia, for months, was cured by three or four applications of the Arctic Liniment.

Restored to Beauty.
Mrs. George K. Tyler, Canal Street, N. Y., had long suffered from a painful and disfiguring eruption on the face, and by the use of one bottle of the Liniment was cured, and restored to her original beauty.

Terrible Tumor.
Eugene Mallory, Natchez, was three years the victim of a horrible tumor on the neck, which resisted all remedies, until he used the Arctic Liniment. Three bottles cured him in a few weeks.

Wonderful Cure!
Mrs. Bedford, Mobile, was confined to her couch for three years by a tumor on the neck, which resisted all remedies, until she used the Arctic Liniment. Three bottles cured her in a little over a month.

An Explosion.
I hereby certify, that having been badly bruised and scalded by an explosion of a boiler, I was cured by the use of Bragg's Arctic Liniment. The scalds and bruises were cured in a very short time, and the pain was entirely removed. In two weeks I was well, and able to resume my business.

Restored to Health.
Mrs. George K. Tyler, Canal Street, N. Y., had long suffered from a painful and disfiguring eruption on the face, and by the use of one bottle of the Liniment was cured, and restored to her original beauty.

BY THE UNION LINE.
TO THE DAILY INTELLIGENCER.
OFFICE, CORNER WATER AND MONROE STREETS.

CONGRESSIONAL.
WASHINGTON, May 14.

House.—The House proceeded to dispatch Territorial business reported from Committee of the Whole.

The bill making an appropriation for the completion of a Military road from Astoria to Salem, in Oregon, was passed. Two other bills for roads in New Mexico and Washington Territory, were rejected. The House then took up the private calendar.

Two dozen private bills were laid aside for favorable action, there being no quorum present. On motion of Mr. Clemens, the Sergeant-at-Arms was directed to arrest and bring to the House, such members as had not been excused. A number were arrested from time to time and brought in, and their excuses not being deemed satisfactory, they were discharged from custody on the payment of fees.

SENATE.—A resolution was submitted by Mr. Regges, of N. C., that the President be requested to communicate to the Senate any information which may have been received concerning the recent search or seizure of the American vessels by foreign armed cruisers in the Gulf of Mexico and adjacent seas, and also what measures, if any, have been taken in relation thereto; adopted unanimously.

Mr. McKim introduced a resolution which was adopted, that a committee be appointed to investigate the charges made against him by the citizens of Iowa, respecting the sale of the Fort Crawford lands.

After the passage of other minor bills, the Senate adjourned.

WASHINGTON NEWS.
May 14.—It is ascertained from an undoubted source, by latest advices from New Granada, that the Cass-Herran treaty had passed the Senate with a comparatively unimportant amendment to the first article and striking out the 7th article, relative to a coal depot for the U. S.

It was believed that the House would restore the latter, but with the understanding that the privilege of continuing only so long as the existence of the treaty subject to renewal, in case of a disagreement, both branches to meet in convention, when a majority of the whole vote determines the question. The decided indications are that the treaty will pass with the above amendments.

The New Granada Congress were still occupied with the discussion of a new Federal Constitution.

R. W. Latham, witness in the Willet's Point case, after whom a deputy had been sent by the Sergeant at Arms, has returned to Washington in accordance with his promise in a letter he addressed to the Chairman of the Investigating Committee, on the day he had left for Kentucky.

The Sec'y of War has authorized the Chief of the Bureau of Ordnance to send to New York an officer connected with that bureau, for the purpose of testing the cannon cast for the Russian Man of War now building in that city. This is done at the request of Russian Captain, who is superintending the construction of the vessel.

The receipts of the Treasury during the past week amounted to \$448,000. Amount subject to draft \$3,422,000. Reduction from previous week is \$927,000.

A letter from the Pursr of the Sloop of War Portsmouth, states that Mexican dollars have become a current coin in China, and will henceforth be more used than any other foreign money.

In a letter from Minister Forsyth to Cass, dated April 30th, he says that since he has been in charge of this Legation, complaints have been made of depredations committed by Gen. Garson on American merchants to the extent of \$300,000 or \$300,000.

Garson's habit is, when Tampico is hostile to him, to seize the merchants goods in transit from that port to San Louis Potosi and to the interior markets. It has been so long since an American Man of War has been seen in the Mexican waters that the local authorities have almost forgotten we possess a Navy.

Consul Chase, in letters from Tampico, among other things, says: we can expect nothing but utter ruin in everything that comes in Garson's way, and I no longer consider the lives and property of our countrymen resting here safe.

He accordingly asked that a war vessel be sent thither with the least possible delay.

On application of Mr. Cass, Sec'y Toney despatched the steamer Fulton, Capt. Almy, who was instructed to report all the particulars connected with the firing into the American vessels of Tampico. Capt. Almy writes that he had accomplished a great deal already. He had effected the liberation of Capt. France.

FIRE.
NEW ALBANY, May 14.—The Machine Shops of the New Albany and Salem R. R. Co. burned at half past 1 o'clock this morning. Seven locomotives, two or three passenger cars and a dozen freight cars, with all the machinery, were destroyed. Loss estimated at a quarter of a million of dollars. Insured for only \$10,000. Caused by incendiary.

RIVER AND WEATHER.
Pittsburg, May 14.—River 11 feet by pier mark, falling. Weather cloudy, with indications of rain. Mercury 72.

St. Louis, May 14.—The river continues to decline slowly at this point. The Upper Mississippi is stationary at Dubuque and with 8 feet on the bar. The Missouri is falling, with 4-4 feet in the channel. Weather clear and warm. Mercury 88.

CINCINNATI, May 14.—River fallen 18 inches the last 24 hours. Weather partially cloudy and sultry. Thermometer 75.

LOUISVILLE, May 14.—River falling, with 8-12 feet on the falls. Weather clear. Mercury 87.

CINCINNATI MARKET.
May 14.—Flour buoyant and in fair demand for higher grades, and prices 3 and 10c per bushel better; receipts light. Whisky advanced to 17c.
